

Smart Switch From Ground to Cloud

Beautiful Xinmin Campus

About School

- ▶ Taipei Xinmin Private Elementary School was established in 1956. As Xinmin has just celebrated its 60th anniversary last year, Principal Pan decided to turn this traditional school into a modern, with high technology learning where each classrooms come with a smart board.
- ▶ Xinmin has been promoting the importance of Global Education whereas the furthest distance in the world is right in our school- the e-learning! Farewell to the dusty chalkboard and hello to the innovative smart board. Xinmin has stepped into a new milestone in education.

Start off...

Summer of 2016~A New era for Xinmin

- ➔ **E-Classroom** (2016~2017 Summer) Completed installation of the smart board in every classroom.

Teacher's Training

Lead teacher Sharon Lin had three training workshop with teachers.

Visit other smart school

Our teachers went to the other smart school-Bei Xin Elementary school to visit their smart board learning.

Smart board teacher's workshop

Workshop at school-All teachers participated in the smart board teaching workshop. Teaching demonstration was held after the workshop. Six teachers were picked for the demonstration.

Teaching Demonstration

The six teachers started teaching demonstration in their class. Teachers had reviews with the professor after the demonstration.

Smart board lead teacher

- ▶ April, 2016 Teacher Sharon has won a silver medal in the cross-strait smart board teaching competition.

Anchoring-A Preparation for the New Voyage

► Start off

In order to prolong its life, an old eagle will fly to the very top of the mountain alone. It will break its beak and nails and pulled all its feathers to wait for the rebirth.

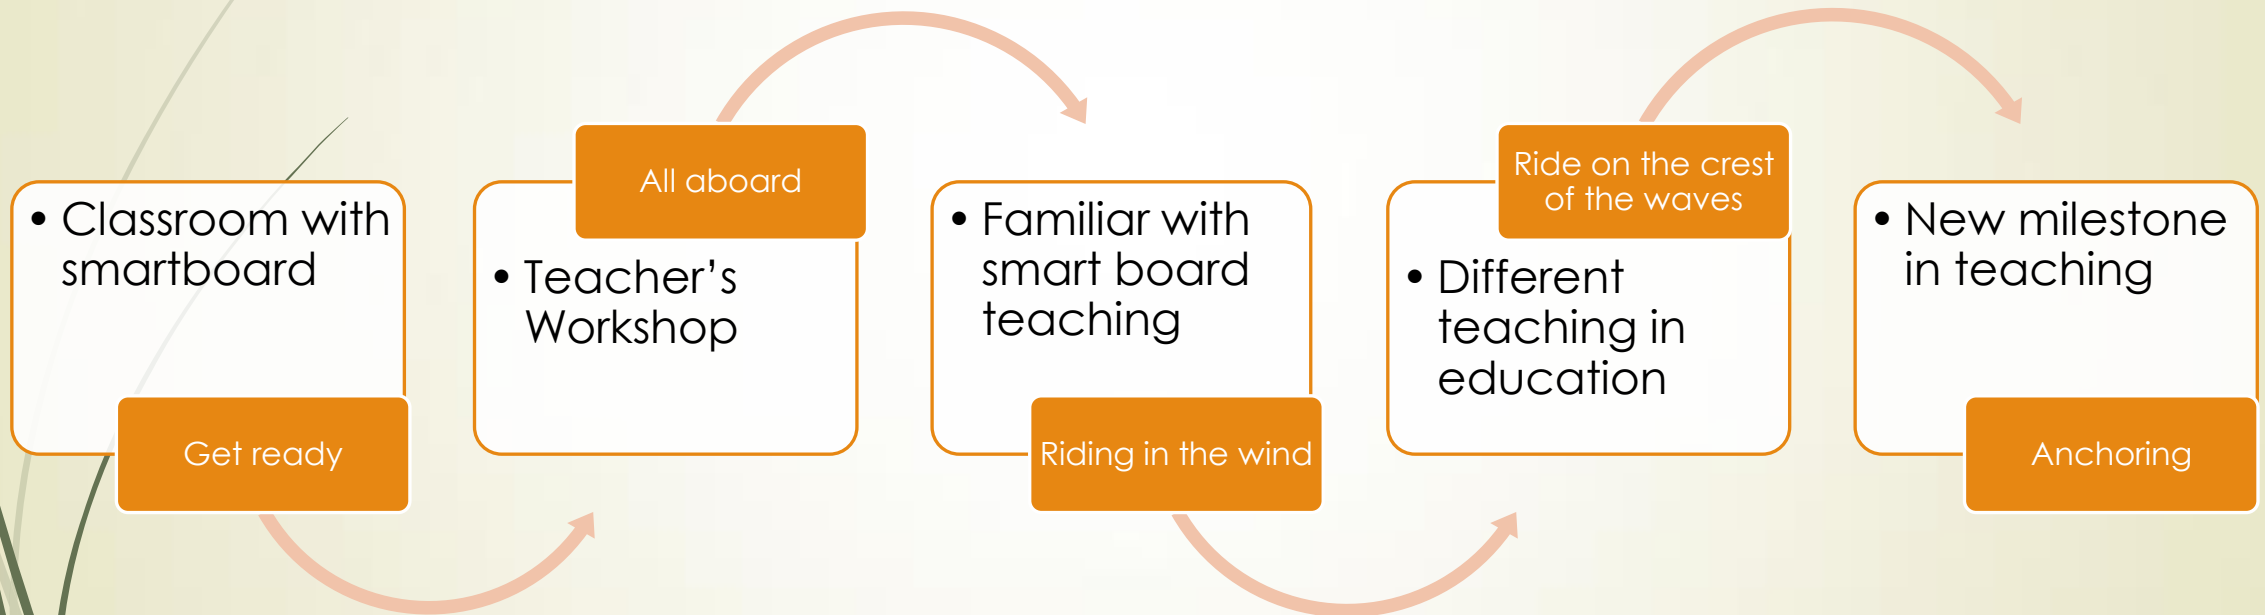

The notion of the rebirth of eagles has become an inspiration to how we should rejuvenate Xinmin's education system.

Rebirth of an eagle

Xinmin Flipping to E-Classroom

Journey

Chart of the journey of ride on the crest of the waves

Our model to success

Preparation	Process	Power of Exploration	Methods
Get Ready	Opportunity	Motivation	Inspiration ~ Motivation
Riding in the wind	Guidance	Impetus	Guidance ~ Impetus
Ride of the crest o the waves	Practice	Patience	Practice ~ Patience
Anchoring (Harvest)	Establish	Potential	Establish ~ Potential

Content of the Smart classroom

- Group discussion, learning with each other
- Develop TPC material

Smart Service

- ▶ use i-cloud to store all the information
- ▶ Provide notes through e- devices
- ▶ Teachers know the abilities of each students through the computer statistics.

Anchoring

PTA~Parent's Experience

About e-learning

- **Teachers** : Convenient 、 environmental friendly 、 students pay more attention
- **Students** : More interesting in learning, enjoy the group discussion
- **Parents** : Makes learning interesting 、 children learn the importance of cooperation

Although we have just started our journey, it surely a very precious experience for our school. It will not be a smooth voyage, but we all learn from the journey. We will definitely making the smart switch from ground to cloud.

Anchoring

Technology has replaced the human power

- ▶ The Chair man of Alibaba group said: I am certain that our children will not be able to find a job 30 years later. Machines or robots can replace many technical skills and labor.
- ▶ Use high technology skill to replace human labor is a trend ◦
- ▶ Time is changing 、 technology has progressing 、 education should not be the same !

THANK YOU

~ The End ~
